Critical analysis of scholarly open-access publishing

LIST OF STANDALONE JOURNALS

Potential, possible, or probable predatory scholarly open-access journals

This is a list of questionable, scholarly open-access standalone journals. For journals published by a publisher, please look for the publisher on the list of publishers, here (http://scholarlyoa.com/publishers/). This list is only for single, standalone journals.

We recommend that scholars read the available reviews, assessments and descriptions provided here, and then decide for themselves whether they want to submit articles, serve as editors or on editorial boards. The criteria for determining predatory journals are here (http://wp.me/p280Ch-g5).

We hope that tenure and promotion committees can also decide for themselves how importantly or not to rate articles published in these journals in the context of their own institutional standards and/or geo-cultural locus. We emphasize that journals change in their business and editorial practices over time. This list is kept up-to-date to the best extent possible but may not reflect sudden, unreported, or unknown enhancements.

- Academic Exchange Quarterly (http://www.rapidintellect.com/AEQweb/)
- Academy of Contemporary Research Journal (http://aocrj.org/) (AOCRJ)
- Accountancy Business and the Public Interest (http://visar.csustan.edu/aaba/aabajournalpage.html)
